

M1 Basic MAB:

PE: Should I stay, or should I go?

Instructions:

As a class, each student will review and react to each of the following situations. Each will determine for themselves if they would chose to stay or chose to go.

There are no right or wrong answers, everyone votes. Everyone learns.

M1 Basic MAB:

PE: Should you stay, or should you go?

Round 1:

“A man is at your facility to receive services. As you walk into the room the angry man looks you dead in the eye, picks up a chair and smashes it against the wall.”

Should you Stay or Should you go?

PE: Should you stay, or should you go?

Round 2:

“A man is at your facility to receive services. As you walk into the room the angry man looks you dead in the eye, picks up a chair and smashes it against the wall.

The man has his hand on another chair. There are three more chairs within his reach.”

Should you Stay or Should you go?

PE: Should you stay, or should you go?

Round 3:

“A man is at your facility to receive services. As you walk into the room the angry man looks you dead in the eye, picks up a chair and smashes it against the wall.

The man has his hand on another chair. There are three more chairs within his reach.

The man is a regular, and his case notes say after he throw the first chair he wants to sit in the second chair and talk to you about his problems”
